**Project Description:** To address the potential for changed circumstances, a contingency fund will be established to implement remedial measures identified in the HCP. A process for setting aside contingency funds will be formalized and funds will be allocated through 2030. Total funding allocated to remedial measures is \$13,270,000 in 2003 dollars indexed to inflation. The first five year funding period has been set at \$1,330,000 in 2003 dollars indexed to inflation.

In the event that changed circumstances occur, the Program Manager will implement remedial measures identified in the HCP. Remedial measures will be implemented within the available LCR MSCP budget, including contingency funds allocated through this work task. The Program Manager will administer the remedial measures fund. In order to effectively manage this contingency fund, a formalized process must be established and approved by the Steering Committee.
